Welcome Message

Dear Colleagues

As president of the International Diabetes Epidemiology Group, I would like to invite you to our 2019 16th IDEG Symposium, to be held in Seoul, Korea shortly before the International Diabetes Federation Congress later this year.

IDEG, founded in 1979, has an unbroken tradition of assembling those interested in diabetes epidemiology from around the world to meet and mingle with their colleagues. In the meantime, the burden of diabetes has grown tremendously, and the investigation of diabetes has escaped the confines of endocrinology to become a subject of major import to all those interested in global health.

Our Symposium is an excellent means of obtaining relevant updates and glimpses of future directions in the field, to affirm/reaffirm interest in this vital area, meet the names behind the papers, make contacts, plan collaborative endeavors, and in general move from day-to-day local interests to engagement in issues at the international level. A far cry from the rush of the world's major diabetes meetings, IDEG's comfortable size makes all of this possible.

IDEG will once again offer its Training Workshop, a traditional aspect of our meetings aiming to capacitate young investigators interested in diabetes epidemiology. Generously financed by the U.S. CDC, this Workshop will offer financial support for travel and lodging to appropriate candidates attending the Symposium.

I thus invite IDEG regulars, young researchers considering diabetes epidemiology as a future focus, and all those in-between to come to Seoul and enjoy our biannual gathering.

Bruce B. Duncan, MD, PhD
President, International Diabetes Epidemiology Group

Program Highlights

- Following our tradition, the bulk of the scientific program is dedicated to the presentation of selected abstracts, providing ample opportunity for participants to present their original research.
- Peter Bennett Award Lecture, recognizing a major and longstanding contribution to the field of diabetes epidemiology.
- Harry Keen Award Lecture, honoring a younger leader in the field of diabetes epidemiology.

Program topics:

- Global trends in and novel complications of diabetes
- Big data in diabetes research
- Diabetes registries
- Debate: 1h glucose should be used to predict diabetes: Pro and Con
- Endocrine-disrupting chemicals and diabetes

How to Participate

Abstracts

We welcome abstracts related to any aspect of diabetes epidemiology, submitted through our Symposium website.

Bursaries

As in previous meetings, we offer free registration and travel bursaries to early career professionals wishing to attend our one-day Workshop on Diabetes Epidemiology Methods and participate in the Symposium. For more details on the Workshop, please visit the Symposium site.

Registration

Registration is now open. To obtain the best rate, register by June 30th. We accept payment by credit card or bank transfer.

FULL CONFERENCE RATES

EARLYBIRD (to June 30, 2019)

Participant: US\$330
Student (resident, masters, Honors, PhD, etc.): \$165
Accompanying Guest: US\$85

Advanced (July 1 - September 30, 2019)

Participant: US\$370
Student (resident, masters, Honors, PhD, etc.): \$185
Accompanying Guest: US\$85

Regular & Onsite (After September 30, 2019)

Participant: US\$395
Student (resident, masters, Honors, PhD, etc.): US\$195
Accompanying Guest: \$85 US

SINGLE DAY RATES

Advanced (July 1 – September 30, 2019)

Participant: US\$190
Student (resident, masters, Honors, PhD, etc.): US\$95
Accompanying Guest: US\$40

Regular & Onsite (After September 30, 2019)

Participant: US\$195
Student (resident, masters, Honors, PhD, etc.): US\$95
Accompanying Guest: US\$45
